#### **DETAILED ACTION**

## Claim Rejections - 35 USC § 112

- 1. Claims 50-51 arre rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- 2. In claim 50 at line 4, the phrase "the body adapted to be rotatably coupled to the first component" is unclear since it is not clear which "body" of the first or second component as being at lines 2-3 is being referred to.

## Allowable Subject Matter

- 3. Claims 29-49, 52-54 are allowed.
- 4. Claims 50-51 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
- 5. The following is a statement of reasons for the indication of allowable subject matter: None of the prior art discloses or suggests a cable guide for a fiber optic cable and a method for attaching a boot to a fiber optic cable; wherein, the cable guide comprising a body defining a passageway for receiving a fiber optic cable. A first end of the cable guide is rotatably coupled to a boot; a rotation key on the cable guide and/or a rotation control device on the boot limit the rotation of the cable guide with respect to the boot.

Application/Control Number: 10/771,960 Page 3

Art Unit: 2839

#### Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Walter et al. is further cited to show a strain relief system for fiber optic connectors.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Khiem Nguyen whose telephone number is 571 272-2096. The examiner can normally be reached on Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor TC Patel can be reached at 571 272 2098. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
